

Research Administration & Proposal Submission System (RAPSS) Legacy Renewal Quick Reference

This document is intended for the proposal team.

Initiate Legacy Renewal (Paper Endorsement)

In an effort to transition current paper base activity into RAPSS, the proposal team should initiate the (competitive) renewal as a “New” funding proposal. This unique action should occur only once to establish the legacy proposal/award in the system. The work flow process would mirror that of a regular funding proposal. However, if a new renewal is established from this record, the proposal team should follow the “New Renewal” process, as illustrated in the [Renewal Quick Reference Guide](#).
