

RUTGERS

Office for Research

NSF CAREER

Peer-Review Workshops

The Research Development team in the Office for Research will be hosting small-scale NSF CAREER peer review workshops during the week of **June 28**.

The goal of these workshops is to support Rutgers faculty who are submitting an NSF CAREER proposal for the **July 2021** deadline, while also helping to build connections between early-career faculty.

Workshops will be facilitated by Rutgers faculty who are previous NSF CAREER awardees or Research Development staff.

All participants are expected to review and be prepared to provide verbal comments on their peers' drafts at the workshop.

Registration is required and is limited to the first four registrants for each session.
